

## **Creating > Sharing > Inspiring**

Contemplate, explore, and expound upon the subject you love. Bring your enthusiasm to life as an instructor at Harper College, where your work can have its greatest impact upon individuals from a wide variety of cultures. Feel the elation, as our students take your desire for excellence and make it their own.

We welcome you to inspire others, contribute to your profession, and enjoy the complete educational experience, collegial setting, and advanced technological resources of Harper. Teach more than your discipline. Teach your passion.

### **MATHEMATICS FACULTY**

Here is an outstanding opportunity to bring your enthusiasm for mathematics into the lives of students. The ideal candidate will have an educational and experiential background in innovative strategies for developmental mathematics. **TEACH YOUR PASSION.**

Requirements include at least a Master's degree in mathematics or mathematics education with at least 30 total semester hours (45 quarter hours) in mathematics including at least 18 graduate hours in mathematics. Post secondary teaching experience is required. Two years of community college teaching experience preferred. The teaching experience may be fulfilled through a program of supervised teaching as a graduate student.
