

Empowering people by raising aspirations and fostering achievement through dynamic, compassionate, and responsible learning experiences.

Instructor in Mathematics (Tenure Track)

One Position Available

Reports to: Dean of Mathematics, Science and Technology

Goal Statement:

Teach and assess student-learning outcomes in introductory Mathematics courses appropriate to the first two years of college, possibly including courses in developmental mathematics, a mathematics major sequence, or support courses for career education programs. In collaboration with colleagues, responsible for ongoing curriculum evaluation and improvement within the context of LCCC's general education objectives and articulation requirements. Facilitate student learning outside of the classroom through participation in student activities, college, and community events.

DUTIES AND RESPONSIBILITIES:

- **Learner-centered Instruction:** Teach Mathematics courses according to relevant student learning objectives. Regularly assess student learning to continuously improve instruction. Teach evening and/or off-campus courses, if necessary. Provide office hours conducive to student schedules. Assist with the development and services of the new Math Resource Center.
- **Curriculum Development:** Develop and/or revise course(s) in collaboration with colleagues. Propose and develop interdepartmental course offerings that meet the articulation requirements in Mathematics.
- **Technology:** Integrate instructional technology as appropriate in the discipline of Mathematics, including appropriate use of graphing calculators in both developmental and transfer-level courses. Be willing to learn to use on-line course delivery and/or web-enhanced course components, should the need arise.
- **Involvement:** Support College-wide initiatives and serve on committees. Mentor and support adjunct faculty in Mathematics.
- **Professional Development:** Initiate and maintain active participation in professional development opportunities that encompass the disciplines of Mathematics and teaching effectiveness.

- **Philosophy:** Continually strive to achieve the college **Mission, Vision** and **Purposes**.

REQUIREMENTS:

- Master's Degree in Mathematics from an accredited college/university required.
- Teaching experience at the college level in Mathematics preferred.
- Demonstrated commitment to the mission of the community college required.

PROCESS: The College is accepting applications for one full-time, tenure-track position for Fall, 2008, pending budget approval.
