

## ***Factoring Quadratics: Part IV***

**Lance Hemlow**, Raritan Valley Community College

### ***Abstract***

In our never-ending quest to find quadratics that factor under all four cases (started by Steve Kaczowski, 2001) of the signs of the coefficients, we have found yet another form of such quadratics.

*Lance Hemlow is now completing his 21st year at Raritan Valley Community College, in Somerville, NJ. This article marks the fourth installment in a series of articles dedicated to factoring quadratics. When Lance is not teaching, he enjoys opera, NYC and spending time with his wife, Donna.*
